DANIEL PACHECO DIAZ

Junior Java Backend Developer

San Isidro, Tenerife, Spain | 677 814 294 | cloudxdam@gmail.com | cloudxdam.github.io/portfolio

PROFESSIONAL PROFILE

DAM graduate focused on Java backend development, with experience using Spring Boot, REST APIs, SQL databases and Git in academic projects, as well as a background in IT support. After several years working in human resources, administration and logistics, I decided to pursue my interest in technology professionally and build my career as a backend developer.

FEATURED PROJECT

QubeCore — DAM Project (eTwinning / Erasmus+)

Worked with an international team to develop a web platform as part of the eTwinning “Let’s StartUp Together!” programme. Contributed to developing application features using Java, Spring Boot, MySQL and React, including JWT authentication, an administration panel and forms connected to the REST API. Used Git and GitHub for version control and team collaboration.

EDUCATION

Higher Technician in Multiplatform Application Development (DAM) | 2024–2026 | Final Grade: 9.59 / 10
Higher Technician in International Trade | 2001-2003

ADDITIONAL TRAINING

- Responsive Web Design Certification — freeCodeCamp
- Introduction to AI Development — BIG School

LANGUAGES

English: B2 (EOI certificate) | French: A1

TECHNICAL SKILLS
